

STATE OF VERMONT  
PUBLIC SERVICE BOARD

CPG #NM-620

Application of David and Jan Blittersdorf for a )  
certificate of public good for an interconnected net )  
metered photovoltaic electrical power system )  
)

Order entered: 4/29/2009

**I. INTRODUCTION**

This case involves an application filed by David and Jan Blittersdorf ("Applicants"), on March 30, 2009, requesting a certificate of public good ("CPG"), pursuant to 30 V.S.A. §§ 219a and 248 and Vermont Public Service Board ("Board") Rule 5.100, for a net metering system.<sup>1</sup> The net metering system consists of a photovoltaic system.

Notice of the application has been sent to all parties as specified in the Board's Rule 5.100. The notice stated that any party wishing to submit comments or request a hearing in this matter needed to file comments with the Board within thirty (30) working days of the date that the notice of the application was sent.

On April 15, 2009, the Agency of Natural Resources ("ANR") filed a copy of a letter addressed to the Applicants regarding the project site's distance from a nearby lake.<sup>2</sup> ANR has not filed an objection to the system with the Board, nor has ANR stated that the project location relative to the lakeshore raised a significant issue with respect to the applicable criteria under 30 V.S.A. §§ 219a and 248.

On April 22, 2009, the Applicants filed a copy of a response to the ANR letter stating that the project will be located over 100 feet from the lake.

No other comments have been received from any other parties or interested persons.

The Board has reviewed the application and accompanying documents and agrees that, pursuant to 30 V.S.A. §§ 219a and 248 and the Board's Rule 5.100, a CPG should be issued without further investigation or hearing.

---

1. The application was initially filed on March 23, 2009, but was not completed until March 30, 2009.

2. The application, at Section 4, states that the project will be located approximately 100 feet from the lakeshore.

## **II. FINDINGS**

Based upon the application and its accompanying documents, the Board makes the following findings in this matter.

1. The proposed net metering project will be on property owned by the Applicants and located at 182 Lay Drive in Morgan, Vermont. Application at Section 1.
2. The proposed net metering facility is to be erected on a new structure. Application at Section 4.
3. The proposed project consists of a photovoltaic electrical generation system with a system-rated output of 2.28 kW AC. The facility will be interconnected with the Vermont Electric Cooperative, Inc. electrical distribution system. Application at Section 4 and attachment.
4. Applicants have certified that the project is in compliance with all of the provisions of Sections 3 and 9 of the application. Based on these submissions, we conclude that the project does not raise a significant issue with respect to the environmental criteria of 30 V.S.A. § 248. Application at Sections 3 and 9.
5. Applicants have certified compliance with the insurance requirements as set forth in Section 3 of the application. Application at Section 3.

## **III. CONCLUSION**

In Docket No. 6181,<sup>3</sup> the Board developed a net metering program in accordance with the statutory requirements of 30 V.S.A. § 219a. This program was further refined by the Board with the adoption of Board Rule 5.100 on March 1, 2001. The goals of the Order and Rule are to encourage private investment in renewable energy resources, stimulate the economic growth of the state and enhance the continued diversification of energy sources used in Vermont. The standards and requirements adopted in the Order and Rule have been determined by the Board to protect public safety and system reliability.

---

3. *Investigation into the Use of A Net Metering System for the Purchase and Sale of Electricity from Small Electrical Generating Systems to and from Electric Companies*, Docket No. 6181, April 21, 1999.

Based upon the findings and evidence, the proposed net metering project will be in compliance with the requirements of the Board's Order in Docket No. 6181 and Rule 5.100, the application does not raise a significant issue with respect to the substantive criteria of 30 V.S.A. § 248, and the proposed project will promote the general good of the state.

#### **IV. ORDER**

IT IS HEREBY ORDERED, ADJUDGED AND DECREED by the Public Service Board of the State of Vermont that the proposed photovoltaic net metering system, in accordance with the evidence and plans submitted in this proceeding, will promote the general good of the State of Vermont pursuant to 30 V.S.A. § 219a, and a certificate of public good to that effect shall be issued in this matter, pursuant to 30 V.S.A. §§ 219a and 248.

DATED at Montpelier, Vermont, this 29th day of April, 2009.

OFFICE OF THE CLERK

Filed: April 29, 2009

Attest: s/Susan M. Hudson  
Clerk of the Board

*NOTICE TO READERS: This decision is subject to revision of technical errors. Readers are requested to notify the Clerk of the Board (by e-mail, telephone, or in writing) of any apparent errors, in order that any necessary corrections may be made. (E-mail address: psb.clerk@state.vt.us)*

*Appeal of this decision to the Supreme Court of Vermont must be filed with the Clerk of the Board within thirty days. Appeal will not stay the effect of this Order, absent further Order by this Board or appropriate action by the Supreme Court of Vermont. Motions for reconsideration or stay, if any, must be filed with the Clerk of the Board within ten days of the date of this decision and order.*
